Living Style Guide

For Healthy Living Home Connections

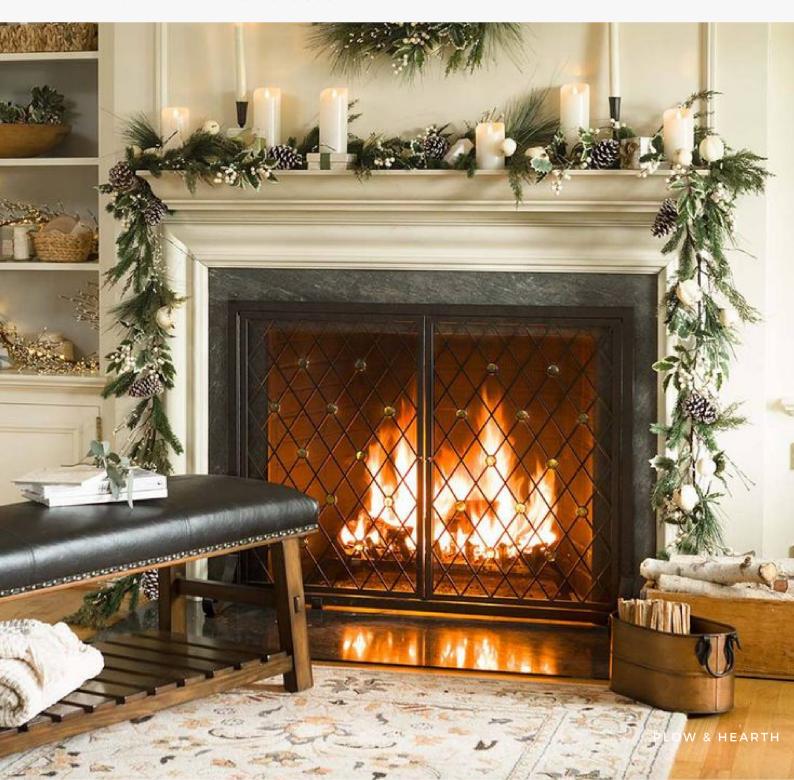

elevate

UPTOWN CULTURE

Sophisticate your interiors with a gilded/metal fireplace screen. Paint firebox & facing black, or neutral for extra distinction. Elevate your look with a fun mantle display and fire-resistant heath rug.

KIDS IN MIND?

Looking for ways to upgrade the unused fireplace in the children's room? Consider using sensory objects to recreate their favourite scene. For extra lighting, try warm string/rope lights for comfy ambience. Utilise the space further, by using it as a storage option to help keep the room both tidy and playful.

elevate

MAKE IT POP

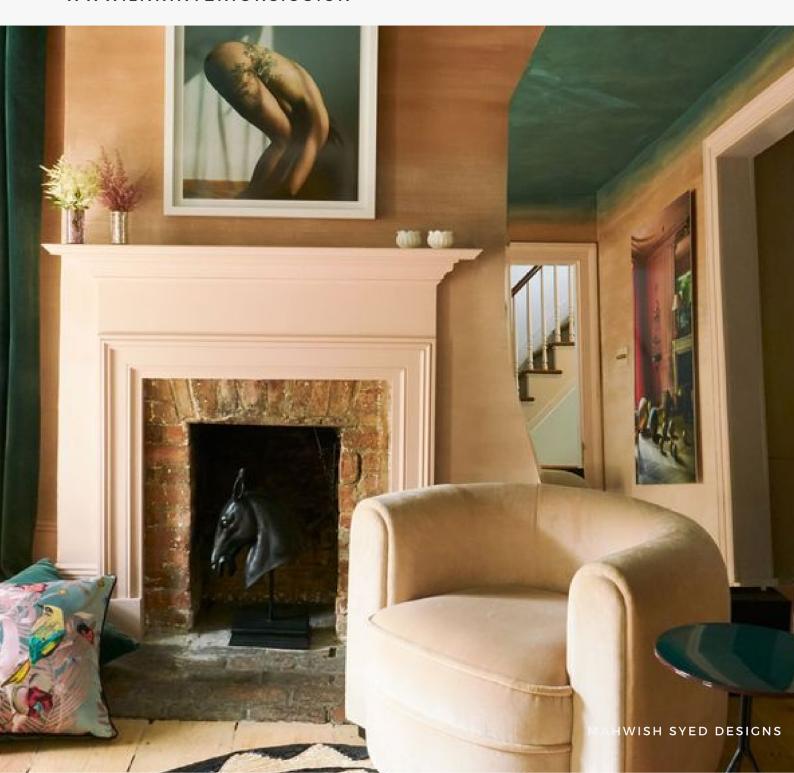

Embrace "dopamine decor" for a stimulating and lively space. Instantly add grandeur with a bold-coloured mantle. Use high-spirited shades and bold patterned tiles. Experiment with reflective materials or mirror tiles to enhance the depth and light in the room. Be bold, be brave and mix it up!

RECHARGE YOUR FURNACE

Revitalize a disused fireplace with eye-catching visuals. Breath new life into it by transforming the hearth or firebox into a display area for your favorite collectibles, decorative pots, vases, books, candles, throws and plants for an instant uplift.

elevate

RUSTIC CHARM

To create a cosy cabin/rural atmosphere, consider filling the space with decorative treated logs/branches or use faux effect wallpaper such as wood shingles or stacked birch for a low-maintenance option. A chopped birch fireplace cover can also be tactile and inviting.
